

Pruthvi Jitendrabhai Pandya

AI & Data Engineering — Computer Vision — Process Automation
London, UK

pandyapruthvi7@gmail.com +44 7774 739 451 LinkedIn GitHub AI Hub Platform

Profile

AI & Data Engineering professional with an MSc in Artificial Intelligence and hands-on experience in machine learning, computer vision, and data analytics. Skilled in Python, SQL, Power BI, Git, Overleaf, and automation pipelines. Experienced in developing real-time AI systems using YOLOv8, OpenCV, and edge computing platforms. Strong foundation in process optimization, supply chain analytics, and KPI-driven insights. Passionate about building intelligent automation systems that bridge data, robotics, and decision-making. Right to work in the UK.

Key Skills

AI & Machine Learning: Python, TensorFlow, PyTorch, YOLOv8, OpenCV, Scikit-Learn, SVM, Reinforcement Learning

Data Analytics & Automation: SQL, Power BI, Tableau, Pandas, NumPy, Data Cleaning, KPI Tracking

Robotics & Computer Vision: Object Detection, Image Classification, Sensor Fusion, Edge Computing (Jetson)

ERP & Operations: SAP MM, BOM Creation, Procurement & Inventory Planning

Tools: Git, Jupyter, Google Colab, Jira, MATLAB, Excel (Advanced), VS Code, Overleaf

Soft Skills: Communication, Leadership, Problem Solving, Time Management, Project Management, Adaptability, Teamwork, Continuous Learning, Decision Making

Professional Experience

Data Analyst Intern—Victoria Solutions, London Mar 2025–Apr 2025

- Cleaned, transformed, and analyzed large datasets using Python, SQL, and Power BI.
- Built interactive dashboards tracking KPIs, enabling 15% faster decision-making.
- Applied SVM models to identify customer churn patterns and improve segmentation.

Assistant Planning Engineer—Maxxis Tyres, Ahmedabad Feb 2023–Sep 2023

- Analyzed production data, reducing waste by 20% through KPI-driven planning.
- Developed real-time Power BI dashboards for production monitoring.
- Implemented quality control protocol, improving efficiency by 15%.
- Supported audits contributing to maintenance of ISO certifications.

Logistics Executive—Nobel Automotive, Ahmedabad May 2022—Jan 2023

- Automated logistics reporting pipelines in SAP, reducing manual effort by 40%.
- Built dashboards tracking delivery KPIs and improving on-time shipment rate.
- Implemented health and safety procedures, reducing workplace incidents by 20%.

Purchase Engineer —Pravin Engineering Works, Ahmedabad Jan 2021–Apr 2022

- Managed vendor analytics, achieving 15% cost savings through optimisation
- Created Bills of Materials supporting ERP-based procurement.

Junior Planning & Purchase Engineer, Mahesh Engineering Works Jul 2020—Jan 2021

- Supported production planning and inventory analytics within ERP systems.
- Monitored supplier KPIs aligned with production targets.

Projects

Real-Time Object Detection System

- Developed a real-time object detection pipeline using YOLOv8 and OpenCV for live camera inference
- Implemented low-latency processing suitable for continuous video streams
- Designed edge-ready architecture for deployment on embedded platforms (e.g., NVIDIA Jetson)
- Optimised model performance for accuracy–speed trade-offs in resource-constrained environments

Retail Sales Analytics Dashboard (Power BI)

- Built a dashboard visualizing revenue, KPIs, and customer retention metrics.
- Identified cross-selling opportunities, improving up-sell conversion by 12%.

Indian Classical Raga Classification (MSc Thesis)

- Developed CNN + LSTM models for audio classification using TensorFlow.
- Performed feature engineering and signal processing for high-accuracy prediction.

Education

MSc. Artificial Intelligence and its Applications

University of Essex, UK 2023 – 2024 (Merit)

Bachelor of Engineering, Mechanical Engineering

SAL Institute of Technology and Engineering Research, India 2016–2020 (6.75/10 CGPI)

Certifications & Training

- ISRO – Remote Sensing, Geographical Information System and Global Navigation Satellite System Remote Sensing, Geographical Information System and Global Navigation Satellite System - Indian Institute of Remote Sensing (IIRS), Indian Space Research Organization (ISRO), Indian Institute of Remote Sensing (IIRS), Indian Space Research Organization (ISRO). Issued Sep 2025.
- Data Analyst Internship – Victoria Solutions, London (2025) Practical application of Python, SQL, and Power BI for analytics and business insights.
- Industrial Training – Shah Alloys Ltd. (2019): Hands-on experience in production planning, quality control, and process optimization.
